cheesy picture book. low on details

By Mel

I was really disappointed in this one--there are lots of photos like the one on the cover, which show nothing. There are no detailed drawings, and few detailed descriptions of techniques (oddly, a whole section on shaving!!) If you want substance, I suggest the "Tickle his Pickle" and "Ride'Em Cowgirl" books--silly titles but full of very detailed drawings and descriptions of techniques, along with some very sweet humor, both from Dr. Sadie Allison.

Informative

By Comfy Girl

This book does have some information in it that I didn't know so for that I am glad I bought it. I could do without some of the lame stories...just wanted information, not detailed stories of someone else's experience.

Expected and wanted more

By D. Goertzen

I love the concept of the book...illustrating oral sex through pictures, but feel that this book feel far short of that. There is very little in the way of technique or new ideas presented. That would be fine with me if the pictures and illustrations had excited us, but we kept turning the pages looking for the "good ones." The poses are very stylized...and not at all what we were hoping for.
