Amazon.com Review

Although she does not bill herself as a professional astrologer, psychic Sylvia Browne has some strong opinions on how astrology plays into life on earth (as well as the afterlife). "I promise you that you will not read any of this information in any other astrology book," writes Browne. "This work represents my personal observations from 30 years as a professional psychic." Instead of specific predictions, this compact book offers general astrology tips. For example, she asserts that premature babies are probably trying to assure that they're born under the right sign. Other tips include: "Most of the time fire and air signs go every well together," and "A rule of thumb is that you are compatible with people three signs removed from you." Readers can also look up Browne's specific thoughts and psychic insights under their zodiac sign. But beware, Browne has a tell-it-like-I-see-it style, so not all of her comments are glowing and flattering.

About the Author

Sylvia Browne is a renowned psychic, author and lecturer. Her publications include New York Times bestseller *Adventures of a Psychic* and *The Other Side and Back*.

ASTROLOGY THROUGH A PSYCHIC'S EYES BY SYLVIA BROWNE PDF

In this book, Sylvia Browne presents her philosophy on astrology. It is written in a humorous vein, yet is a serious work and intended to educate the reader.

Sylvia has done extensive research, using the most reliable data available: real people. She feels that astrology is a living discipline and must be studied with humanity. Only through a close examination of individuals, with all of their fears, strengths, phobias, loves, and spirituality, will a true picture of astrology emerge.

More than thirty years of joy, tears, laughter, and knowledge are reflected in this work, gathered by Sylvia during her many thousands of counseling sessions.

An psychics humorous take on Astrology!

By Lovejoy

It was a fun and easy read. She shares her very humorous observations of the 12 signs of the zodiac (only the sun signs) based on her experience with them and her knowledge of astrology. The tone of the book is far from "politically correct" and written her with unique brand of humor. I loved it! Kept texting my friends as I read through their signs and will definitely gift to some friends as well. You could also use it as an entertaining reference book on sun signs.

I bought the kindle edition and it was cheaper than a latte which is rare these days with most kindle books.
