A bomb run over Berlin in 1944, the thirtieth and final mission for one British Bomber Command aircrew. For them, World War II is virtually over. They will take off tonight, make a last passage through the barrage of flak and flame, take a last gamble against the Messerschmitts, and return to England and relative peace. The pilot of the Lancaster bomber, Wally Mann, Paul Taylor the navigator, Douglas, Harry, Phil, Charlie, Len — the other members of the crew — dream of life and love and each fights his fear as the bomber lifts off in the night for the run over Berlin. But across the Channel, a young German fighter pilot, grieving for his dead parents and thinking of the combat to come, is destined to alter forever the lives of the British bomber crew.

One of the most exciting first novels to appear in years, Bomb Run has been described as "a military The High and the Mighty." Certainly one of the finest novels ever written about flying, it is one of the most exciting reading experiences in any genre.

About the author: Spencer Dunmore was a schoolboy in Yorkshire, England during World War II and watched bombers limping home to the RAF airfields there. His imagination was fired by this experience to the extent that he became an expert on the war in the air, 1939-1945, and his accounts of the bombers and fighters involved are renowned for their accuracy. Dunmore left Britain for Canada in the mid-50s where he was an advertising executive for many years. Dunmore is now a full-time writer and a private pilot on weekends and resides in Ontario.

Excellent Read

I thoroughly enjoyed this book. However the only problem with it is that there was lots of British flying and military jargon with no translation or definition which I was unable to understand.
