CLOSING THE CIRCLE: ENVIRONMENTAL JUSTICE IN INDIAN COUNTRY BY JAMES M. GRIJALVA PDF

This book analyzes how an anomalous confluence of federal environmental, administrative and Indian law exacerbates environmental injustice in Indian country, but also offers its most promising solution. The modern environmental law paradigm of federal-state partnerships falters in Indian country where state regulatory jurisdiction is constrained by federal Indian law. A resulting void of effective environmental regulation threatens the cultural survival of American Indian tribes, who face air and water contamination from a legacy of federally encouraged natural resource development. A potential solution for closing the circle of national environmental protection accords sovereign tribal governments a state-like status. The book examines comprehensively the tribal treatment-as-a-state approach first developed by the U.S. Environmental Protection Agency (EPA) and later codified by Congress in amendments to most of the major environmental laws, as well as federal cases brought by states and non-Indians challenging the EPA's and tribes' authority to make binding value judgments about Indian country environmental protection.

Excellent, easy-to-understand read on Tribal Environmental Law

By margiebee

Sometimes with books on environmental law, it is all too easy to become bogged down in all of the abbreviations contained in the environmental acts-i.e. CWA, CAA, SDWA, NSR/PSD, TIP/SIP, NPDES etc. The author of Closing the Circle did an excellent job of steering clear of overwhelming the reader with abbreviations. What makes this book helpful is a discussion of each of the major environmental acts and how they are implemented in Indian Country, written at a level that is suitable for both practitioners and lay persons seeking an overview on the subject.
