An already free website 'published' as a book
By Mr. S. Cook
162 Books 'published' as questions/answers from Stack Overflow. Why not just go to stack overflow and get an up to date answer? How can someone 'publish' a copy of a free site and charge money for it? I wonder how long it would take for a computer program to generate a book from such a site? I'm surprised Amazon allow this to get past the editorial guidelines on what is classed as a book.
