Review

"...The first two chapters introduce the reader to the methodology utilized in the work. ...Of particular importance are the distinctions that differentiate between civil, regional, and inter-communal wars. ...The heart of the work is found in the remaining six chapters, entitled "Intrastate Wars in North America," "Intrastate Wars in South America," "Intrastate Wars in Europe," "Intrastate Wars in the Middle East and North Africa," "Intrastate Wars in Asia and Oceania," "Intrastate Wars in Sub-Saharan Africa." More than 400 conflicts are covered, beginning with the First Caucasus War of 1818 to 1822 to the ongoing Ukraine Separatists War that erupted in 2014. ...Since information about many of the conflicts included in this work is hard to locate, academic and large public libraries should definitely consider acquiring this work, especially if their constituencies include historians or political scientists." -- John R. Burch Jr. *American Reference Books Annual* "...In addition to a clear narrative on each conflict, the authors list the participants, dates, sizes of military forces, deaths on each side, who initiated the conflict, and its outcome. In true scholarly fashion, details on how coding rules were applied in each case are provided, and an entire chapter is devoted to describing how variables are defined. Exquisitely indexed and well referenced, the work offers a unique perspective on warfare...Summing Up: Highly recommended. All academic levels; general readers." -- J. A. Knapp CHOICE

About the Author

Jeffrey S. Dixon received his BA in International Relations and Political Science/History from Concordia College in Moorhead, Minnesota. He received his PhD in Political Science from Rice University in Houston, Texas, writing his dissertation on the consequences of third-party military intervention on civil war outcomes. He has published articles on the causes of civil wars, how civil wars end, and the duration of civil wars.
