# HITLER'S LAST DAY: MINUTE BY MINUTE BY JONATHAN MAYO, EMMA CRAIGIE PDF

On 30th April 1945 Germany is in chaos - Russian troops have reached Berlin. All over the country, people are on the move - concentration camp survivors, Allied PoWs, escaping Nazis - and the civilian population is fast running out of food. The man who orchestrated this nightmare is in his bunker beneath the capital, saying his farewells. *Hitler's Last Day: Minute by Minute* is pure chronological narrative, as seen through the eyes of those who were with Hitler in those last tumultuous hours; those fighting in the streets of Germany; and those pacing the corridors of power in Washington, London and Moscow. It was a day of endings and beginnings when ordinary people were placed in extraordinary situations. Take Sisi Wilczek, fleeing the advancing Russians with her family's vast fortune in a shoebox; President Truman, weighing up whether to use the atomic bomb that his Secretary of War calls 'the most terrible weapon ever known in human history'; German officer Claus Sellier, on a last mission across the country to deliver vital documents; or Allied aircrews, dropping food parcels to feed the starving Dutch population. 30th April 1945 was a day that millions had dreamed of, and millions had died for.

Well paced, well documented book, of reference quality, reads like a novel

By Malcolm M. Brown

This book is part of a "Minute by Minute" Series of a few books which trace some historical events. Jonathan Mayo has written several such books, and has a background with the BBC. The book is written in a journalistic style, largely in the present tense and is very thorough in its listing of events and historical characters, and thus quite educational. It is fast and easy reading. By way of "full disclosure", the co-author

Emma Craigie is my first cousin, once removed--and that fact peaked my curiosity about buying it. I had not read anything of hers previously.

Very Misleading Title

By Kindle Customer

The book's title Hitler's Last Day Minute by Minute: The hidden story of an SS family in wartime Germany is misleading. I read a serialization of this book in the UK press. The serialization concentrated on the actual last day in the Bunker. I expected the full book to be details of the same. Less than a third of the book is about the persons in the Bunker or Hitler himself. The details of Hitler's last day are superficial. Everything about that is well known and nothing "hidden."

The book felt as if the authors chose random personal accounts from that day and could only tie them together chronologically (hour by hour not minute by minute). The greatest part of the book is personal anecdotes of people nowhere near Hitler that day. What do the actions of future US President John F. Kennedy, in a California hotel room, have to do with Hitler's last day? He was not yet a politician, but was a reporter. What was the point of mentioning how much his newspaper was paying him? If you are looking to read a detailed account about what happened to Hitler and his entourage in the Bunker that day, look elsewhere.

10 of 11 people found the following review helpful.

The title hooked me, the text bored me.

By Adam R. Schmitt

A unique approach to the last days of WWII, but the minute by minute format didn't work well making it hard to track. Because the story jumped around to keep the format, it lost momentum and my interest. Significant chunks of the work is made up from primary resource citations without adequate analysis to justify it. It's not plagiarism, but lazy history to meet a page count. I spent 99 cents (Kindle special). Probably would have enjoyed a 99 cent donut more.
