Over 230 pictures - The beauty and horror - the history - the myth of the Sepoy revolt of 1857 - the religions - the national separatist movements, to the modern nations of the sub continent. - peeling back the layers of the onion that is India. For the deeper the peel the worse the stench. "India Shattering the Illusion: The Birth of New Nations. From Kashmir to Eelam" is a book about the "crumbling" subcontinent. It states the reasons why a region of 1 billion 700 million people has failed so terribly that the only path left is the birth of new nations.

The governments of India, Pakistan, Bangladesh and Sri Lanka have regressed in so many aspects since their independence from the British Empire to the point the collective future for the majority of people of the Sub Continent are so utterly hopeless they cannot solve an ever growing crisis created by the new elite since independence. The book goes into the relevant history, and myths that formed these nations, the rich tapestry of the kaleidoscope of cultures, philosophies, and diversity that has effectively masked to the world a horror which should not even exist.

This book states how the world sees the once great cultures of the Sub Continent and how they have worked for some and against most. Due to the incredible diversity of the subcontinent the book addresses why each region should become a nation based on its own collective history and culture.

Since the end of British rule in 1947 India has declined into the largest failed state in the history of nations. Starting from the first page - The Truth is that India's leadership is the world's most DEGENERATE, DUPLICITOUS and DEBAUCHED ruling class to have ever existed - carnage is happening today in India the likes of which has not been seen in thousands of years. All under an Illusion of harmony and accord while WE in Western societies go about our daily lives.

It is not our task to stop the destitution of the hundreds of million miserable wretches that inhabit that land, indeed not, it is theirs to do - by whatever means necessary - by petition if possible. or Revolution if need be. It is theirs to give birth to new nations from Kashmir to Eelam. The "experiment" of modern India is so horrible there are no parallels in human history. The holocaust of Nazi Europe to that of the worst Revolutions. No Great World War has sustained such unacknowledged misery. The nightmare of the unending sadness of the absolutism of radical Islam are drowned by the sheer breath and scale of the collective horror of India. Death by any means imaginable - children cut into pieces while alive. Living animals ripped apart before other animals to witness before thrown, often while still conscious onto burning sacrificial fire. Human corpses are dug up and the rotten flesh is eaten. Present day slavery at unprecedented levels and rising.

What a joke. This 'book' is essentially a hate festival against the worlds largest democracy and the worlds 3 largest economy, well on its way to becoming the 2nd largest in 20 years !! Makes you wonder who this author is. I guess anybody can write a 'book' and carry it on Amazon. Dont waste your time even attempting to read this junk.

-- The book "*India Shattering The Illusion. The Birth of New Nations. From Kashmir to Eelam*" is awesome. I have read many books on the sub continent but none are like this book. To give it credit I would have to write a page, so instead I will state my review in words and phrases: "Inspiring", "shocking", "brilliant", "logical", "A must read for anyone who wants to understand this region". I highly recommend this book by Columbus Falco. Word of caution. Falco means to reveal so much about India that sections of it are graphic but had to be stated.
