Great option for independent study

By eyandall

Product is perfect for students that are working to make up a deficient credit in Chemistry. I recommend it for students making up an A-G req in CA.

Excellent textbook..

By rpv

Very nicely illustrated and explained. Excellent description. Lot of diagrams and clear descriptions. This book should motivate kids to take up chemistry as profession. I got this book for 8th grade chemistry for a private school in California. They use it for teaching 7th and 8th grade chemistry. I wish it was cheaper, why are new textbooks so expensive. If cheaper everyone should buy.
