SO FRESH, SO NEW

I can just imagine what people thought when the first color TV was introduced all those years ago, watching the formerly black and white world come to life with color. The Yellow Brick Road in *The Wizard of Oz* must have suddenly made a lot more sense to those who'd only seen it on black-and-white TVs prior! Maybe those viewers felt a little like I did when I got my first set of markers. I felt as though some wizard had just given me a whole rainbow with which to color magical worlds in whatever way I wanted. For a time, life was grand, right up until I learned about the so-called rules. Rules can sometimes be rigid and confining, and have a "delightful" habit of taking the wind out of your creative sails.

The first real rule I was taught as a child was Color inside the lines. Along with being the first rule I learned, it was also the first one that I simply had to break. I was much more interested in watching colors appear on the paper as I scribbled willy-nilly. It was hypnotizing. My young, little brain was thinking way too fast for my tiny hands to keep up. Get the color on the paper was the only goal I had in mind. I was a creative kid and my coloring was in abstract overdrive. I would go wildly outside the lines, straight over the lines, and, occasionally, right off the page and entirely onto the table! New rule from Mom: Don't color the table. (Some rules are just no fun at all.)

Now that I'm mostly grown up I've finally created a coloring book, not only for kids but also for the inner child in everyone. Nothing in the world makes me feel more like a kid again than the smell of a pack of crayons and a big blank coloring book full of possibilities.

In this collection, I hope to provide you with a really interesting and unique experience. I want whomever picks up this book and flips through its pages to feel an irresistible urge to fill in all its images with all sorts of vivid colors. You'll be surprised by how my pieces have changed for this coloring book. I have repurposed some of my artwork, adding cool patterned backgrounds to fill the negative space—and to give you more elements to color. Ha! Ha!

Feel free to be as creative as you want! Color as you will. Break the rules if it pleases you. (But you don't have to be messy, if you don't want to be either.) This is a rule-free book.

Alternatively, you can use these pages to practice and to level up your coloring skills. Maybe your pencil sketches are great but you just haven't found your color style yet. Coloring isn't easy. And, no, I have never colored any of these images here. You will be a coloring pioneer!

Honestly, I struggle the most with choosing colors, more than with any other part of my creative process. Even when I spend all day choosing the colors, I sometimes just end up painting over them the next day anyways. Phew! Even writing about it is exhausting. Just remember you can always try again. You could even photocopy some of the images and practice on the copies before you give it a real shot in the book itself! That's what coloring is all about—trial and error.

There is still a rebellious little child running around in my wild imagination, bending and breaking the rules of art as she pleases. My artwork blends the cute, creepy, and the surreal in a whimsical way that defies any logic or physics. I can't wait to see what inspiration you take out of the characters and patterns created for these pages. Go wild with your choices, be a rebel, think outside the box, and definitely, absolutely, color outside the lines and straight onto the table—if that's what you want to do! Just don't tell your parents that I told you so. (Wink. Wink.)

Only limited by your imagination!

By Redd

You may remember my review from earlier this year for Camilla’s Pop Manga drawing book, where I discussed my newfound love for her style and art. Well, she came out with a coloring book!!!! The lineart

chosen for this book is fantastic. Leagues above the general/pattern adult coloring books. And the detail lines are fine enough that you can ignore some of them to make a simpler piece.

My biggest problem was with the two page spreads. I love them, but since they spanned two pages you have to deal with the gutter of the book. To solve this problem, and the problem of wanting a harder surface to color on, I bought a second copy of this book, so I could tear the pages out when I choose to color them. Markers, colored pencils, and watercolors work well with this paper stock, but the pages are double-sided. Just be careful about bleeding through if you want to color both sides.

I received a copy in exchange for an honest review through Blogging for Books, but I also went out and bought a copy!

This book is VERY cute!! You look no further! This is it!

By My ARTasticSelf

I looked through this one before giving it as a gift.

This is a square, larger, thick paper, double sided book.

The paper is good quality, however, if you use a wet medium, you will not be able to color the opposite side.

I always recommend using papers under what page you are coloring, just in case.

The artwork is original, cute, and weird all wrapped in one.

In this kind of book, original is best! Her characters are unique and very well drawn.

I've seen them turned into some very beautiful pieces of art!

If you are looking for something a little different than the masses of repeat kind of coloring books.....

You look no further! This is it!

SO PRETTY.

By Nicole

This is one of the most beautiful coloring books I have ever purchased and I have purchased a lot of coloring books. Her art work is amazing and I feel myself being breath taken with the illustrations. At first I didn't even want to start coloring the pages because I thought the images where so beautiful, but ones I got past that, I breathed life into her already perfect art.
