I was extremely disappointed on how little there was about the specific subject

By Queensguy

After reading that the book was revised because of green development, I was extremely disappointed on how little there was about the specific subject. It is a good basic book but the revision was over-hyped. I could have saved a lot of money. I would only recommend this for beginners.

By Cole Ziegler

The material is written in a "down to earth" or "plain english" format - making for a much easier read and quicker grasp of the concepts. Each chapter contains key term lists and review questions.
