Eye Opening.

By Charlene Whitehouse

Marissa Storm captivated me and made me think. How so many people have missed the signs of abuse for so long. It happens every day in our lives. Those little signs that no one seems to see. And never see until the child takes drastic measures. This book has opened my eyes and made me aware. I didn't drink or do drugs when the neighbor down the road tried to get me to do something with him. I was so scared I went home and told my mom right away. I she went right to him and told him you will never ever touch my child or have anything to do with her. I thank my mom for listening to me and believing in me enough to stand up for me. If by reading this book saves one girl the shame of believing its her fault. I applaud Marissa Storm her wonderful writing of this book. Thank you Marissa. Please read this book. I recommend it highly.

slice of life.

By reader2010

A slice of life on the very wrong side. Certainly based on a true story. Mothers, take note, predators of this nature often threaten the families of the children they seek to use.
