Once a seasoned gamer, Max has cheated fate, swapping his dying body for an immortal avatar in the world of sword and sorcery MMORPGs. He joins the ranks of a new race of people: perma players, forever stuck in the virtual castles and cities of AlterWorld. Now they have to obey the ever-changing rules of their new home while learning to live together in peace, love, and justice.

But freedom and immortality are a poisoned chalice. Some of Max's new friends crave power; others become traitors and spies. Soon the first screams of pain fill the virtual world as its freshly minted slavedrivers and torturers indulge in the absence of law and order. Their crimes provide a constant flow of gold back to their real-world controllers: the power-happy governments plotting to take over AlterWorld's magic technologies and limitless resources. What would you do? Would you step aside and watch the magical world turn into the Earth's dark twin? Or are you strong enough to step in the virtual sharks' way?

Great read and good second book

By Amazon Customer

second book is as great as the first!!

story continues setting things up and building world and characters.

Writing and spelling is good and great to see such a good translation to english. ( please hurry rest of series :) lol translate faster !!!!! lol. )

The writing style is very good and flows well and with the second book we have started to see some new characters being introduced and things look very interesting.

Beware there is a cliffhanger ending ...but this is book 2 of currently 5 book series and i believe author has said he is working on book 6. 3-5 are yet to be translated to english.

For those looking for a good fantasy series set in new litRPG genre that is good size and well written with good character and world building that is part of a good sized series... GRAB IT NOW!

Thanks so much!

By Aleksandar Minkovski

Thanks Dmitrii!

I red all the books in russian from litres and loved them all.

My son is a typical teenager gamer - very hard to get him read anything.

Books and him, just cannot exist in the same place and time.

He doesn't know russian, so english is the only option for him to read your books.  
He swallowed the first two in a single weekend and impatiently waiting for more!

Thanks a lot again!

I am VERY impressed.

By Sue Sweet

Congratulations to you Dmitri, for a great book, in an exciting and new genre. I believe that the storyline, at least, will appeal to all fantasy readers, and especially to RGP players. Congratulations also to your wonderful translator, without whom we would not have had the opportunity to enjoy your work!

I found myself invested in the characters, and found them, and their world, believable and entertaining. The plot moved at just the right pace, and action was never far away. Fortunately for fans, the format of the genre leaves a great deal of room for plot and character advancement (which is only natural, I suppose, considering the premise of the books) and although the RPG jargon could initially be confusing to some, it should be easily understood from context, and there is always the glossary to fall back on.

I don't normally write reviews, as I normally move on and read another book immediately and tend to forget what I would have said, but in this case, I felt so strongly about the series that I felt the need to add to the reviews in order to encourage haste in getting the rest of the books out!

Thank you for an excellent read.
