Peri's Story and So Much More

By Daniel Bowen

When I saw this book pop up, it was an instant buy and sit down to read in. . . Not one sitting but in a few hours. You know, life intrudes!

This book continues with a closer look at Peri, the close friend and co-worker of Devin from the first book. Peri is now off on his own adventure. As the Navy vessel escorted him, VIP no less, my suspicions were raised. Why is the Navy picking him up? Isn't it the Navy behind a lot of the problems?

The other half of this story is Beshel, yes of the Drago family. He is a Chief Investigator and is behind the scenes, trying to find answers and of course one case comes up involving Peri. Do the two hit it off? No. But they have a history and Beshel is there to investigate. As the plot heats up the two go from family acquaintances to so much more.

While a lot of situations were cleared up, some weren't explained. I didn't re-read the first two books but was trying to figure out why a group on the Degan home world would want racial purity, toss out the 'aliens'. . . . Yet was this group of protesters different from those that were involved in genetic experiments? Or were the genetic experiments only done by the humans on the Degan race? I assumed there were different groups and different agendas but still, it was confusing. And no follow up on what they found on that planet, what the harvesting was for, or anything about the spider bots and if they were genetically engineered from Degan material. What was the purpose behind that base and where was the extracted material going?

And of all things, if Martan was being 'harvested', is he able to bounce back or is he permanently disabled in some way?

I didn't understand why the embryo was stolen. Was it a means to capture Beshel and Peri? And if there was one embryo out there, how many more are there? Maybe the next installment will tighten up the conspiracy theories. As it is it's piecemeal from book to book. - Dan's Wife

The Degan Paradox

This series is giving me life. Rob Colton just pressing upon my feels with his words.

So, this pretty much takes place after the second book. Not much time has passed . I'd say only a couple months in between.

(If you haven't read the previous two books in the series, I urge you to before purchasing this one, as I don't consider this a stand alone. Many of the plot lines were established in the other two books and characters are re-introduced from those stories into this one)

This installment features Bastian's gruff uncle (his father's , Deshel's little brother) Beshel. (I really love these names) and Devin's best friend almost like a brother Peri. Beshel is Degan and Peri is human. In the first book we get a sense of sexual tension between the pair. Beshel though is kind of an a hole.

However, Peri is starting to experience dreams of the carnal kind featuring a certain Degan. He also discovers that the embryo that was found in book two plays an important role in his life . Yet the mystery is how ? And who is the Degan sire? (Obviously , we know but it's cool to see how it was discovered within the story.)

Beshel isn't a fan of the whole fated bondmate thing. Thinking that it's not real. But something about Peri makes him start to question how he sees the world.

We also get a more in depth look into the twisted scientists who are conducting sick experiments on Degan and Human reproductive processes. (I really hated those scientists.)

I also love the name Harikan. Wondering on how to pronounce it though.

I also cannot wait for Martan and Kenji's book. I really can't. I'm not giving up hope that it'll show up on amazon tomorrow. I know it's way too soon though. A girl can dream.

I really love this series. I've read all Rob Colton's book on here and I am pretty confident in saying that I'm a fan.

If you like Mpreg stories , you will absolutely love this. If you don't , you will absolutely love this. Or you should because if you don't we could never be friends.
