Couldn't finish it

By Cassie Holmes

I loved the first book in this series. The intimacy/sex with the aliens was a bit odd for my taste in the first book yet it didn't go overboard so I looked past it, but because it had even more of a focus in this second book of the series it just felt too weird so I couldn't finish reading it. I only got through the first 4 chapters before I said 'yech' and deleted it. The author does such a great job describing how grotesque these aliens look with their squiggling tentacles and all of that so then to picture them getting erotic with the humans was just way too gross for me.

Couldn't get through it

By Sarah

Octavia Butler's work has been recommended to me time and again. I chose this series to be my first exploration of her work since it was so highly rated by other reads. Truth is, I could barely get through the first book, and I quit the second book halfway through. The characters weren't compelling, I couldn't connect with them on any personal level, and the story line dragged.

Octavia E Butler's book are an amazing unexpected read. I love a book where You fall in love with the characters. A story with an unusual premise (this is sci fi) but you want to learn more.
