This is my second year with the "Your Best Year" workbook and Lisa has wowed me once again

By Megansmidt

This is my second year with the "Your Best Year" workbook and Lisa has wowed me once again! I have a life coaching business that I get most of my clients online through my website. I followed the amazing workbook last year and it really helped me to meet my business and personal goals. I love how Lisa gives you examples of how the workbook should be filled out to help you along in your journey. I have started working on MBY2017 and I can't wait to see how it helps to propel me forward in my business and personal life. I would totally recommend this workbook to anyone who owns their own business or has been thinking about starting an online business. You will ROCK it with this book by your side!

This book is IT for me...

By sonograta

I am about a year into a tiny, product-based side business that has unexpectedly turned into something that I want to have earn a significant portion of my yearly income. But since the get-go, I have been in reactive mode, flying by the seat of my pants, and without a clear plan of attack - which, by pure luck, has worked for me up until this point. But right now, I'm at a critical crossroad and I know that if I don't choose the right path, all of the time and money I've invested up to this point will be wasted, and I'll lose the customer base and all of the momentum I've hustled to build so far.

I'm a "maker", and perfectly happy to sit in my studio and make what I make. It's hard for me to put myself out there, to market myself and my goods and ask for the sale, but it's even harder for me to come up with a proactive, forward-thinking strategy to get me there.

I stumbled across Lisa's blog earlier this year and her voice and planning tips really resonated with me as a creative entrepreneur, so getting her Your Best Year 2017 workbook was a no-brainer for me. Without hesitation, I can easily say that this book is going to be THE key to bringing my business to the next level this coming calendar year.

Just as a reference: I'm someone who buys entrepreneurial and small-business books often, but there is not ONE that I have been able to read cover-to-cover. Most of the books I've seen aren't geared to very small, one-woman creative businesses like mine, and as a result so much of what's out there doesn't apply to me. It's left me frustrated and overwhelmed, and without any advice or tips that I can relate to.

YBY2017 is a breath of fresh air. It's exactly what I've been looking for - a workbook that will guide me through the planning and strategies for what I want to achieve next year, with actionable (I cannot stress how important this word is to me enough) steps to get there. No general, way-above-my-head business philosophies meant for companies that don't look a thing like mine - but rather a clearly-laid out plan of steps and stages to get you focused and productive, delivered in a voice that's firm but friendly.

If you are an Etsy seller, a freelancer, a maker, a crafter - any type of creative entrepreneur - this workbook is a must-have. I highly recommend it, and I feel lucky to have stumbled upon Lisa's expertise at a time when I needed it most.
